Languages

English, Marathi, Hindi

Hard Skills

Problem-Solving

Programming (HTML/CSS, C, JavaScript/TypeScript, Python, Java, Solidity)

Frameworks and Libraries

(React, Express js, Node.js, Next js, Tailwind CSS, Shad cn, WordPress, Chakra-UI, Three js)

Tools (Git/GitHub, Vs-Code, Chat-GPT, Canva, Github CO-pilot, Postman API, Jupyter, Figma)

Databases (MongoDB, FaunaDB GraphQL, Prisma)

Education

BTech Instru.- Vishwakarma Institute of Technology, Pune (CPI: 8.64)

HSC: Pemraj Sarda Clg, Ahilyanagar

Projects

2023 – present

Dork-Ai

Typescript, Next js, API's

- Developed a SaaS platform where you have a powerful, integrated all-in-one AI tool for content creation and for developers.
- Learned how to use the emerging framework of Next.js in conjunction with backend databases and APIs(Open-Ai, Replicate-Ai, Stripe for Payment Integration)

2022

Nivesh Token

Solidity, Thirdweb SDK, WebRTC, IPFS, Livepeer SDK

- A Blockchain/ Web3 based Crowdfunding platform for Startups, where transaction process automated by smart contracts for running the campaign by founders and users donating funds on that startup
- Provides Web3/IPFS based certificates for the donors who contribute or invest in a crowdfunding project which uses ERC720 token for storing certificates on IPFS
- Uses Hardhat to deploy smart contracts locally. Uses layer1 Ethereum chain for payments

2023 April

Transactions Fraud Analysis

Python, Kaggle datasets

Developed a model for predicting fraudulent transactions for the financial company and use insights from the model to develop an actionable plan

2023 March

Waterwise: Smart Water Metering Solution

IoT

Integrating IoT-based Smart Watering Devices for precise water consumption monitoring and streamlined billing processes. Early implementation of IoT-enabled water management systems ensures efficient resource allocation and minimizes environmental impact.

2023 – present

Promptify

React, Next js, Tailwind css, APIs (Next Auth api)

Developed a platform where you have a powerful ai powered prompts shared by people which they used you can copy their prompts and give it to ai tools and make some creative out of it, also you can share prompts with people

Achievements

2023

September

Internal Smart India Hackathon

Hackathon

Achieved success in Internal SIH with 'MedBlocks' project, seamlessly merging blockchain and chatbot technologies, while also engaging in SIH competitions.

2024

February

Hackspiration '22

Hackathon

Nivesh Token- Blockchain based Crowdfunding platform secured a top 5 position in the hackathon.

2023

February

Backend development and API's Certification Freecodecamp

Completed a comprehensive Digital Marketing Fundamentals certification course offered by Google.

2022-2024

Soft-Skills courses

Certifications

Completed various communication courses provided by LinkedIn and TCSion.

Extra-Curricular Activities

2023-present Web Development Head at International Society of Automation (ISA)

2023-present Web Coord at Microsoft Learn Student Club (MLSC)

Singing and playing Guitar Participation in college fests, Vishwakarrandak, Runs official Red wine - A music Band and Performer at official music club of Vit pune called "Aaroha"
